

IGshorts

Platform showcasing best of Instagram

Ranking Top profile/trending/groups#,

News Tickers and Dashboard

Agenda

To build a social media website which can act as aggregator/platform for top ranking profiles, news and trends from regional/country level.

Freely available for public access

Introduction

- User friendly, easy to navigate website
- It shows top10 profiles/trending/ # like a billboard countdown
- Combination of billboard/coin marketcap/medium UI

Tasks

Creates a domain name: IGshorts.com website

Website should be seamless scalable secure

Publicly available for navigation, over the period should be able to transition to login/signon version

UI has to be like that of Billboard top 10/ Coinmakret cap/ Medium.com

Multiple tabs for different categories capturing data from IG

Creating workflow for Top 10 IG profiles of India/state/region

Similar top10 from trending news, reels, groups etc basis number of impressions on social media.

.

The way to get started is to quit talking and begin doing.
